

## BEST BUTTER IS ONLY MADE FROM REAL CLEAN CREAM

It is estimated that there will be a production of butter amounting to fifteen million pounds in the three prairie provinces during the coming season. This figure being entirely outside the amount which represents the home consumption.

This fifteen million pounds surplus which will be produced during May, June, July and August must find a market—but where? The U.S.A. and the United Kingdom do not need it. British Columbia will buy nine million pounds of it, providing it is up to the New Zealand grade. So far Alberta butter has not all been up to that grade, and if this surplus is to be marketed, it is distinctly up to the farmers of Alberta to produce the best quality of cream. No amount of business finesse or skill on part of the manufacturers can place poor butter in a market which will take the best and none other hence it is apparent that the question is a vital one, and for the immediate consideration of the cream producers.

British Columbia will require nine million pounds and over, of butter this year for its own use. Provided Australia and New Zealand, and other competitors were kind enough to keep their butter at home, all would be well for the Alberta producers; but unfortunately the Antipodes have no intention of doing anything of the kind. Our one butter market in B.C. is still further assaulted by outside competition, and fresh antagonism has arrived on the field, in the shape of the American dairyman.

Heretofore American butter was altogether consumed in the States, but this condition has altered, by reason a large importation of butter from Holland, Denmark and the Argentine, which has flooded the eastern American market. Shut out of their usual market, the western producers of butter have jumped into the Vancouver market and are unloading; and will unload American butter on the coast buyers, at a price. Here is that same price—Seattle 25 cents per pound, and Vancouver 32½ cents per pound.

Due to the demoralized condition of the eastern American market, Washington and Oregon—the big Pacific dairymen—are shipping their butter into B.C. on consignment; meaning that they will take any price which is offered. Although the Vancouver buyers have a warm feeling for the prairie producers they cannot afford to ignore the great difference in price.

Alberta cream producers are "up against" a serious proposition, but they can "win out" if more care is taken in production. North Alberta can produce as fine a grade of butter as any part of the world, if the cream is right, and there is a very fine refrigerator service maintained by the National lines, which deliver the butter in Vancouver from Edmonton in 52 hours. Despite the American invasion and the New Zealand and Australian importations, Alberta has many factors in her favor, and can hold this market, if the message can only be brought home to the farmers that so far as cream is concerned, nothing but the best is wanted.

The dairy commissioner of New Zealand has just announced that the southern islands will have 28,000 tons of butter for export. The British government, which was controlling food supplies in the old country through the ministry of food, announces that the United Kingdom has sufficient supplies of butter on hand for nine months and over one million more boxes to come, which had previously been contracted for in New Zealand, Australia and the Argentine; thus shutting out Canadian imports for most of this year. The American Fordney tariff says most emphatically, "You can't come here." British Columbia remains, but B.C. says "Ship us nothing, but the very best." If we try to put them off with second grade they won't.

(Continued on page 3)

There is still a lot of room for improvement in a world where people will trade Liberty Bonds for oil well stock.

### THE 23rd PSALM REVISED DEDICATED TO FORD OWNERS

"The Ford is my car, I shall not want another. It maketh me to dwell in wet places. It vexeth my soul. It leadeth me into deep waters. It leadeth me into paths of ridicule for its name's sake. It prepareth a breakdown in the presence of mine enemies. Yea, though I run through the valley I am bowed up the hill. I fear great evil cometh upon me. Its rods and engine discomfort me. It annoyeth my face with oil. Its tank runneth over. Surely to goodness if this thing follows me all the days of my life I shall dwell in the house of the insane forever."

### RED CROSS DRIVE FOR MEMBERSHIP

The first membership campaign to be launched by the Canadian Red Cross Society on a large scale will be held in Manitoba, Saskatchewan and Alberta between June 5 to 11. It is being launched in the firm belief that Canadians as a body will respond to the appeal, and will join in the work being carried on by the society.

The drive will be made in accordance with the resolution adopted unanimously by the first general council of the League of Red Cross societies held in Geneva Switzerland, May 5, 1919. The resolution requested each of the national societies to conduct an annual campaign for members, as far as practicable at the same time.

Red Cross officials state that this is in no sense a drive for funds. The membership fee of \$1.00 which each new member will contribute, will do little more than pay the expenses incurred in the campaign. The society's object is to enroll as many as possible, interest them in the work of the Red Cross, and thus spread propaganda regarding national health ideals more rapidly and with greater effect.

### KING'S BIRTHDAY CELEBRATED AT VERMILION

(By Our Sporting Editor)  
On Friday last citizens of Wainwright turned out en masse to enjoy the sports day at Vermilion, and paid their respects to their sister town on the C.N.R. The day was fine and about a dozen auto loads to capacity wended their way over the rural trails, enjoying to the full the fresh evening breeze and welcome sunshine.

Vermilion is to be congratulated on the successful conclusion of a good days sports all the events being carried out in good order.

The Wainwright athletics proving themselves as good as the best, winning first place in all the entries except basketball.

The girls basketball games created a great deal of interest. In the first game Vermilion High school defeated Islay. In the second game Minburn defaulted to Vermilion town. Wainwright High school won over Vermilion Public school, by 23-4.

From the above teams entered Vermilion and Wainwright High schools went into the final, and the fans were treated to the best game of the day, both teams were in fine form; and played a fast and exciting game, but in the end Wainwright girls were declared winners. Score being 13-10.

The following team played for Wainwright:—

Forwards—Pearl Wakefield and Effie Murray; Defence—Helen Aykroyd and Florence Tord; Centres—Mary Scofield and Jacee Mabey; Spares Edith Love and Mary Watson; Coach Miss Margaret Stanford.

In the running events Albert

### VIKING WINS BALL GAME

A very thrilling baseball game was staged on the local diamond last Friday afternoon, when the Viking intermediate team played the return game with the Wainwright boys. The game was full of pep from start to finish, and some very fine ball playing was done by both teams, but owing to some hard luck toward the end of the game the Viking boys carried away the honors with a score of 10-7. Our boys are anxious to meet their opponents again, and are confident that they can reverse the score.

### EXHIBITION AT EDMONTON WILL OPEN ON JULY 9

The prize lists for the Edmonton Exhibition are now coming through the mails. The opening date is set as Saturday, July 9th, with automobile races, the Exhibition then continues on Monday, Tuesday, Wednesday, Thursday and closes on Friday, July 15th, with another day of auto racing. Many visitors from country points who have hitherto been prevented from seeing this very interesting part of the fair will by this change of dates be enabled to witness the races and still return home by Sunday.

The live stock judging will commence on Monday, July 11th, and Tuesday will be Farmers' Day. Entries for the various classes close on June 24th, and those who do not receive prize lists promptly should write Manager Stark for same.

As in previous years, arrangements have been made to allow free tenting space on the Exhibition grounds for various parties from country points; this is much appreciated by families as being a pleasant and economical way of seeing the fair; campers may bring their own tents, or rent same with cots and mattresses, and Manager Stark will welcome requests for information about same from intending visitors.

Reduced fares on all railways have been granted.

"We are convinced of the prime importance of widely disseminating among the people a knowledge of the simple laws of healthful living and a conviction as to the need of applying them" was one of the expressions which found utterance at the Cannes conference of International Red Cross Societies in 1919, and it is a principle that is being widely observed by the Canadian Red Cross.

The primary duty of the Canadian Red Cross is to educate the people of Canada to the importance of personal and community hygiene. While this education is going on thousands of dollars are being spent in assisting to cure disease that could have been prevented, if precautionary measures had been taken.

Lachey carried off most of the honors, winning first place in the following races—100 yards dash; 440 yards; the half mile and the three mile.

Lackey and Ryan won the half mile relay race. Lackey carried off the silver cup donated by Mayor Morrison of Vermilion.

The Baseball boys were not so fortunate after securing a comfortable lead against Streamstown, and hand of fans intervened and at the end of a disastrous innings the score board showed Streamstown to be two runs to the good. Wainwright then tightened up and finally tied the team batted to break the tie, in the last half of the eleventh Streamstown came through with a clear hit at the right moment and the game was on ice.

Although Wainwright did not win they have nothing to be ashamed of and the fans freely admitted it to be the best game of the day.

In the final Vermilion carried off first prize with Streamstown in second place.

The days entertainment came to a close by a splendid dance in which the young people took great pleasure and during the "Wee sma hours" the honk; honk of automobiles could be heard along the trails carrying Wainwright people homeward tired but happy.

### UNAUTHORISED WEARING OF MIL- ITARY UNIFORM

It has again been brought to the attention of the Militia Authorities that there are numerous cases of civilians wearing, without authority, Military uniform, or portions of Military uniform, mainly greatcoats, and instructions as to what action should be taken in the circumstances have been issued.

The persons who, without authority, wear uniform, or portions thereof, come within two main classes, viz:—(a) Discharged soldiers, who have been permitted to retain their uniform on discharge, and persons who have purchased from such discharged soldiers or other individuals, articles of uniform with the buttons and badges remaining thereon; and (b) Members of Non-Permanent Active Militia Units who, when not attending drill, or going to aid from drill, or on other occasions not designated in the Militia Act, and the regulations made thereunder, wear their greatcoats, breeches, &c, which have been issued to them.

It is considered that steps should now be taken to prevent as much as possible the unauthorized wearing of uniform, or articles of clothing so nearly similar to Military uniform as are likely to be mistaken therefor.

The Criminal Code (R. S. C. Chap. 146) w. amended by the Statutes of 1910 (10 & 11, Geo. V., Chap. 43) Section 10 of this Chapter adds a new section to the Criminal Code, viz: 437 (a). This amendment provides, in brief, that any person who, without lawful authority, wears any uniform of His Majesty's Naval, Land and Air Forces, or any uniform which is so similar to the uniform of the said Forces as to be likely to be mistaken, it is therefore, shall be liable on summary conviction to a penalty not exceeding twelve months, or to both fine and imprisonment.

This section will be invoked as authority for proceeding in the above-mentioned cases, but before any proceedings are so instituted against persons who commit the above mentioned offence, final warnings are being issued throughout the District, warning all concerned that the unauthorized wearing of any uniform of H. M. Naval, Land or Air Forces or any uniform so similar as likely to be mistaken therefore, constitutes an offence under the Criminal Code, and that persons committing such offence, will render themselves liable to prosecution, and further, that all civilians who wear greatcoats, tunics, &c, must have the buttons and badges removed, thereby rendering them less liable to be mistaken for military uniform.

### WEDDING BELLS

At First Presbyterian manse on Wednesday evening June 1st at eight o'clock a quiet wedding was solemnized by the Rev. Dr. McQueen, when Miss Frances Stinert and Mr George McKenzie were united in marriage. The young couple were attended by Mr and Mrs H. T. Wilson.

After a honeymoon spent at the coast Mr and Mrs McKenzie will make their home in Edmonton—Edmonton Journal

### THE GRIM REAPER

O. E. Peterson received the sad news on Friday of the death of his only daughter Ione, which took place in Pasadena, California. On account of failing health she was taken by her parents to California in hopes of improvement, but the change and tender nursing proved of no value, for she passed away on Friday, June 3rd. She leaves to mourn her loss her mother and father and two brothers, residing at Edmonton. Interment took place on Sunday in Pasadena. Utmost sympathy goes out to the sorrowing parents during their bereavement and sorrow. Miss Peterson was an old timer of Wainwright.

### THANKS GIVEN BY ST. ANDREW'S L. A.

At a special meeting of the Ladies Aid of St. Andrews church the following resolution was passed:—

"That we express through the columns of the Wainwright Star our appreciation to all who took part in the concert and drama in the theatre on May 27th.

That our special thanks be given to Mr R. G. Dunsmore as director and for the excellent manner in which the play was staged."

—

### "GILDED LIES" AT THE ELITE WED. AND THURS.

In "Gilded Lies" the Selznick Picture now showing at the Elite theatre, Eugene O'Brien, in the role of Keene McComb, has a part which gives him splendid opportunities for the display of keen analytical characterization, of which he takes the fullest advantage.

The story concerns the interrupted romance of a young explorer who has gone to win fame for the sake of his fiancée. During his absence she marries a gross charlatan who has been passing himself off as a very wealthy man. Immediate disillusionment follows the wedding, and when McComb returns, bent on revenge his former sweetheart is so utterly miserable that he changes his mind and idly evokes his efforts toward her disengagement. Before this is effected, however, both undergo the depths of humiliation and misery.

Supporting Eugene O'Brien in "Gilded Lies" is Martha Mansfield, the famous beauty of screen and stage and other well-known players. Shown Wednesday and Thursday this week.

EUGENE O'BRIEN in "GILDED LIES" a Selznick Picture

Help Wanted: Male—Gentleman who can finish one-half dozen eggs with his one-half pound of ham object matrimony.

Help Wanted: Male—An honest lawyer to prosecute a crooked one.

Help Wanted: Male—Bartender capable of mixing mince pies.

Help Wanted: Male—Cook who can cook Scotch in his preferred.

Help Wanted: Male—A gentleman who has lost his right leg wants to meet one who has lost his left leg; object, the purchase of shoes, size six.

Help Wanted: Male—Man to look after garden, milk a cow with a good voice accustomed to sing in the choir.

Wanted—Respectable salesgirl; no flirts need apply; we will teach you.

For Sale—Second-hand bicycle by a lady with bent handle bars.

Lost—An umbrella by a gentleman with bent ribs.

For Rent—A house of 8 rooms and two baths on the trolley tracks.

Lost—Valuable walking stick by gentleman with an ivory head.

For Sale—A bulldog; will eat anything; very fond of children; Rooster Wanted—By gentleman, including kitchen privileges, where he could occasionally cook himself.

See the picture next Monday and Tuesday it's a comedy to be long remembered.

The Red Cross enrollment drive, which will be launched on June 5 to increase the membership of the Society to the maximum is the one opportunity being given the people of Canada to become part of an organization that lives only for the good it can do for the suffering and it can alleviate and prevent.

## TIME TABLE FOR WAIN- WRIGHT HIGH SCHOOL EXAMS

### SMOKING AND ATHLETES

Some interesting experiments have been made recently to prove the bad effects even of moderate smoking on athletes, says a writer in Boys' Life. It was found that a baseball pitcher after smoking one cigar lost 12 per cent. in accuracy and fourteen per cent. after smoking two cigars. In shooting at a target rifleman lost 4 per cent. in their score from smoking one cigar and 6 per cent. after smoking two cigars. Bicycle riders after smoking one cigar or three cigarettes lost nine per cent. endurance and increased their heart-beats ten a minute. Similar tests with fencers showed a serious loss in precision in lunging after smoking two cigars. All these athletes gained in accuracy and endurance when they did not smoke.

### WHAT TO TELL

### THE CENSUS ENUMERATOR

Wednesday, last June 1, was set apart as census day, when the census commissioner will ascertain the number of persons that slept beneath each roof the previous night. May 31. All children born previous to midnight May 31 and all persons dying after that time must be included in the census.

The most formidable looking sheet that the enumerator must have filled in contains thirty eight questions relating to the person, place of residence, nationality, race, language, religion, education and occupation. The heads of families, households and institutions are required to furnish the enumerator with all particulars regarding every person in the family, household or institution, for use in the schedule. But if the head of the family is unable to give information concerning a boarder or lodger the enumerator shall leave an "individual form" which will be filled in by the persons concerned and made available for the enumerator at a given time.

Failure to give correct information leaves one liable to \$100 fine or imprisonment up to three months.

### DEPT. OF INTERIOR ISSUES FREE MAPS UNOCCUPIED FARMS

In order to provide prospective purchasers with information as to where suitable land may be obtained in the more settled districts, the Department of the Interior, through its Natural Resources Intelligence Branch, has compiled and published particulars regarding unoccupied privately owned farm lands for sale in this locality. The object of this publication is to assist in the settlement and development of lands now lying idle.

Important details are given concerning each farm such as the area fit for cultivation, nature of soil, distance from railway, price and terms of payment. This information should be of great use to prospective purchasers of those interested in inducing settlers to locate in this vicinity.

The list for the district which is known as No. 19 may be obtained free of charge upon application to the Natural Resources Intelligence Branch of the Department of the Interior at Ottawa.

The aim of the Canadian Red Cross is to make this improvement in conditions general all over Canada. The membership enrollment campaign which will commence June 5 and last one week is a mighty effort to so increase the membership of this organization that a big percentage of people in every community, by subscribing to the tenets of this society, will assist in making Canada a cleaner and healthier place to live in.

The following is the time for the coming Department examinations for this year as set by the High School and University Matriculation Examinations Board:—

Departmental Examinations, Time-table—Grades VIII, IX, X, XI, and XII.

GRADE VIII.

Monday, June 20

8:45-9:00—Reading regulations.

9:00-11:30—Literature.

2:00-4:00—Composition.

Tuesday, June 21

9:00-11:00—Arithmetic and Mensuration.

11:00-11:30—Rapid Calculation

2:00-4:00—Drawing

Wednesday, June 22

9:00-11:00—Grammar

1:30-3:30—Agriculture.

Thursday, June 23

9:00-11:00—Geometry.

2:00-4:00—Geography

Friday, June 24

9:00-10:00—Orthoepy and spelling.

1:30-3:30—History and civics.

GRADE IX.

Friday, June 17

8:45-9:00—Reading regulations.

9:00-12:00—Arithmetic.

2:00-4:30—British History.

Monday, June 20

9:00-12:00—Literature

2:00-4:30—Composition

Tuesday, June 21

9:00-11:30—Physics.

1:30-4:00—Botany and zoology.

Wednesday, June 22

9:00-12:00—Geometry

1:30-4:00—Grammar

Thursday, June 23

9:00-11:30—Physics

2:00-4:30—Art

Friday, June 24

9:00-11:00—Canadian history and civics.

2:00-4:00—Geography

GRADE XI.

Monday, June 20

8:45-9:00—Reading regulations.

9:00-12:00—Literature

2:00-4:30—Composition

Tuesday, June 21

9:00-11:30—Algebra

1:30-4:00—Botany and zoology

Wednesday, June 22

9:00-12:00—Geometry

1:30-4:00—Grammar

Thursday, June 23

9:00-11:30—Physics

2:00-4:30—Art

Friday, June 24

9:00-11:00—Canadian history and civics.

2:00-4:00—Geography

GRADE XII.

Monday, June 20

8:45-9:00—Reading regulations.

9:00-12:00—Literature

2:00-4:30—Composition

Tuesday, June 21

9:00-11:30—Algebra

1:30-4:00—Botany and zoology

Wednesday, June 22

9:00-12:00—Geometry

1:30-4:00—Grammar

Thursday, June 23

9:00-11:30—Physics

2:00-4:30—Art

Friday, June 24

9:00-11:00—Canadian history and civics.

2:00-4:00—Geography

## A Constructive Colonization Project

On three than one occasion during the past two or three years, in fact ever since the signing of the Armistice turned men's thoughts and energies from war back to the pursuits and activities of peace, articles have appeared in this column laying emphasis upon the importance, yes, the urgent necessity, of a large increase in the number of living upon and producing from the land. The view has been advanced without the slightest fear of successful contradiction that the only solution for Canada's huge national problems is to be found in increased population; that is, increased population definitely and actively engaged in the primary industry of producing new wealth out of the undeveloped natural resources of the Dominion—the chief and most easily worked of which are the now unoccupied but fertile agricultural lands of the West.

It requires no great sagacity to arrive at the above opinion. Any intelligent student of conditions and affairs cannot help but see it, nor need he be a very deep student at that. Canada's billions of public debt occasioned by the war can only be carried, and ultimately liquidated, through the taxes paid by the people. But taxes cannot be paid unless people have money, and money is not made merely by the act of trading in existing commodities. New wealth must be created, and it can only be created by production from the land, and, secondly, from the other undeveloped natural resources—the mines, the forests, the fisheries, etc.

Every new settler placed on the present unoccupied lands of Western Canada means—

1. An additional producer of new wealth.
2. Another taxpayer to carry a portion of the public debt whether that debt be represented by the national war bill, (b) provincial, (c) municipal, (d) school.
3. Increased ability and power to provide needed facilities such as schools, highways, bridges, telephones and other public services.
4. Closer settlement, with doctors, hospitals, nurses, churches, postal services, and all the advantages of modern community life nearer at hand.
5. An assurance of an increased volume of traffic for railways and other transportation systems, and consequently largely increased revenues and decreased operating deficits, and at the same time reduced passenger and freight rates.
6. As the natural and inevitable sequel to the above, added value to every acre of land in the whole country.

If the settlement of the now unoccupied lands of the West means the bringing of these decided reforms and advantages, and the solution of now heavy pressing national problems of finance and taxation, surely all Governments, public bodies, and people generally, should not merely welcome, but actively support anything that tends to bring about such a settlement, and organized with the avowed object and sole purpose of encouraging and promoting colonization and settlement for productive use of the unoccupied lands of this country.

In the daily and weekly press during the past week there appears the full text of a memorandum recently submitted to the Provincial Governments of Manitoba, Saskatchewan and Alberta by the managing director of the Western Canada Colonization Association, in which are set forth the studied convictions of that organization as to the steps it is now necessary to take in order to turn the tide of immigration of experienced agriculturists to Western Canada. That memorandum is deserving of the careful study of every man in these Western Provinces who has his own, his neighbor's, and his country's success and prosperity at heart.

It is to be borne in mind that the Western Canada Colonization Association is not a money-making, dividend-paying concern. By its charter, the Western Canada Colonization Association, in which are set forth the studied convictions of that organization as to the steps it is now necessary to take in order to turn the tide of immigration of experienced agriculturists to Western Canada. That memorandum is deserving of the careful study of every man in these Western Provinces who has his own, his neighbor's, and his country's success and prosperity at heart.

### No Message Sent

#### To The Sinn Fein

British Deny Report That Peace Offer Was Made.

The British Government has sent no message to the Sinn Fein "by any body, or authorized anybody, to open negotiations in 'no holding' through the Government spokesman, announced in the House of Commons. Mr. Chamberlain made this announcement in answer to a question concerning the activities of John J. Farrell, former lord mayor of Dublin, who stated in that city, that a peace offer was to be made to the Irish Republican Parliament.

### Many Letters Patent Issued.

During last year the Lands Patent Branch of the Department of the Interior issued 17,732 letters patent, covering an area of 2,785,830 acres. The greatest number of acres covered by these patents was situated in Saskatchewan, namely, 1,541,729 acres; Alberta, 903,085 acres; Manitoba, 317,030 acres; British Columbia, 23,295 acres; Yukon Territory, 475 acres; and Northwest Territories, 16 acres.

### British Columbia Orchards.

An orchard survey recently made by the Horticultural Branch of the B.C. Department of Agriculture gives the total area of land under cultivation at 19,991 acres. Of this amount 12,915 acres are situated in the North Okanagan territory, while the balance, 7,076 acres, is situated in the south.

## Ready to Eat and Every Bit Eatable Grape-Nuts

is convenient, free from waste, and moderate in price.

Skilled blending and long baking bring out the full flavor and richly-nourishing qualities of this cereal food, and make it easy to digest.

## The only Razor that Sharpens Itself!

THE VALET Auto Strip Razor embodies its own sharpening device. A good leather strap is part of the outfit and the razor does the rest.

Because it strips itself, the Valet Auto Strip Razor is the only safety razor that provides a keen-edged blade for every shave.

The Valet Auto Strip Razor does not need to be taken apart to be sharpened or cleaned.

The Valet Auto Strip Razor makes one blade do the work of a dozen.

Razor, Strip and 12 Blades in assortment of cases \$5.50 the set, other sets up to \$16.60.

VALET Auto Strip Razor sharpens itself

Auto Strip Safety Razor Co., Limited - Toronto

### Alberta Crop Prospects

Believed That Area in Wheat Will be Larger Than Last Year.

"Fewer acres and more bushels" is the phrase by which the aims of the farmers in Southern Alberta this year are described by a Lethbridge paper which estimates that the area in crop in the surrounding country will be from fifteen to twenty-five per cent smaller than it was last year, but that considerably more summer-fallowing will be done this year than any previous year.

Any reduction in the area in crop in the southern portion of the province promises to be offset by a corresponding increase in the central and northern portions. Indeed, it is too early yet to say definitely that the acreage in crop in the south will be smaller than it was last year. From several points reports have come of larger areas being seeded.

It may be safely said that the area in wheat will be larger than it was last year. There are two reasons for this. One is that the season opened much earlier than it did last year, thus giving the farmers plenty of time to sow their wheat. The other reason is the more favorable market for oats and other grains.

More and larger areas are being planted to sunflowers on farms in all parts of the province and many more acres will be built this summer. Winter rye and winter wheat, which has been planted has come through the winter in good condition, and the range grass is making a good start.

### Items Against

#### Canadian Units

Many Amounts Shown in British Army Accounts Just Published.

(By John McCormack, Correspondent Winnipeg Free Press)

A reflection of the Canadian camp in England used by the enemy is to be found in the report of the auditor-general on British army accounts published in London. Under the head of losses due to theft, fraud, arson or gross negligence appears an item, "loss of horses and stores at Kinmel by three fires; colonial troops awaiting repatriation suspected, £3,811."

Other items against Canadian units include: Motor car lost by Canadian Ordnance Depot in Belgium, £180; deficiencies of stores at Kinmel, attributed to theft, £283; stores illegally disposed of at Shorecliffe by two non-commissioned officers, £1,278; deficiencies in supplies issued to hospital at Brighton and not accounted for due to the repatriation of Canadian staff, £135; deficiencies in supplies at Shorecliffe, attributed to errors of account, £220. The last two items are not associated with theft, fraud or negligence.

It is computed that from a tenth to a quarter of the cost of foodstuffs in the United States goes to pay for crates and other containers that are thrown away instead of being used a second time.

In the year 1709 an edict was issued at St. Helena for the punishment of persons gossiping. So severe was the penalty imposed that the gossip was forever banished from the island.

If a woman only knew her husband as well before as she does after the chances are that she would marry some other fellow.

Even the man who expects the unexpected is apt to be surprised when it happens.

## Allies Have Not Yet Solved Secret Mechanism of "Big Bertha"

Far Eluded Discovery.

The secret of the mechanism of "Big Bertha" and the three long-range guns of that type which the Germans are known to have possessed, has so far eluded discovery. The Peace Treaty stipulates that these, just as any other German guns, should be surrendered, but up to now the Germans have refused to obey. A grant of 500,000 francs was made by the French Government for research work, with a view to discovering the secret, but down to the present nothing is known by the Allies, apparently, as to how these guns were made. The efforts are continuing, however, and the work is now in the hands of the French naval artillery department.

## Now A Screen Personality Prince of Wales Makes Ideal Camera Subject.

As an adored screen personality the Prince of Wales has eclipsed the leading favorites in England. It is told in London of a flapper who followed the recent Official Film Theatre to theatre, and admitted that she had spent over £2 in three weeks in seeing "that darling boy." A favorite with the topical cinematographers, the Prince is certainly an ideal camera subject. He is always perfectly "natural," and his prowess as a horseman—glimpes again on the screen would do credit to a serial champion.

It's difficult for a man with a boat-rocking wife to paddle his own canoe.

## Murdered!

Put right out of business, a whole family not of good honest folks, but of Cornish—more troublesome—comes that sting add bite. Putnam's Corn Extractor is the only painless relief for corns, it never fails, 25c everywhere.

Canadian Flour For U.S. During the week ending April 16th, 361 carloads of flour passed through Winnipeg for destinations in the United States.

## A SPLENDID TONIC FOR WEAK PEOPLE

Dr. Williams' Pink Pills Act On the Blood and Nerves.

Food is as important to the sick person as medicine, more so in many cases. A badly chosen diet may retard recovery. In health the natural appetite is the best guide to follow; in sickness, the appetite is often feeble and depraved.

Proper food and a good tonic will keep most people in the best of health. Dr. Williams' Pink Pills are a fine tonic medicine, harmless and certain in its action, which is to build up the blood and restore vitality to the run-down system. For growing girls who are thin and pale, for tired women, and for old people who fail in strength, Dr. Williams' Pink Pills are an ideal tonic. Thousands have testified to the benefit derived from the use of this medicine, among them is Mrs. William Galle, Hantsport, N.S., who says: "Before I began the use of Dr. Williams' Pink Pills I was so weak and run-down that I could hardly do my own work. I then suffered from headaches and was very nervous. I then began the use of Dr. Williams' Pink Pills and I can truthfully say I have found them the best medicine I have ever taken. You may depend upon it I will advise my sufferers to take these pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### Egg Shipments From Moose Jaw.

Approximately half a million eggs, comprising six carloads or 2,700 cases, were shipped from Moose Jaw to Canadian and American markets during the month of March. The shipment is a record for any prairie city at this time of the year.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

### Boats For Far North

Activity in the Boat Building Trade at Edmonton.

There is great activity in the boat building trade at Edmonton. During one week a full car of 20-foot heavy freight canoes and lighter boats for the trader and prospector left for the far north. This represents a portion of a large order placed by the Hudson's Bay Company with the Alberta Motor Boat Company. An order has also been received for two heavy cruiser type canoes for the Royal Canadian Mounted Police which they will use in patrol work, and other boats have been ordered by the Dominion Forestry Department.

### Speaker's Chair Has Arrived.

The replica of the Speaker's chair at Westminster bought for the Canadian House of Commons by subscription of all members of the British House of Commons, and which was shipped from the steamer Canadian Rider, which docked at Montreal, and was despatched to Ottawa.

Even a dumb clock can make itself understood with its hands.

## SUNDAY SCHOOL LESSON

LESSON FOR MAY 15.

### WORKING WITH OTHERS

This Scripture pictures the church, the body of Christ, under the figure of the human body. The topic "Working With Others" can only have application to Christians working with each other; for it is as members of the body of Christ that this relationship and obligation are set forth. The church is an organism, not merely an organization. As such it is:

I. One Body (v. 12-20). As a body it has many members, each with a definite ministry or function. Many members are essential to a body or organism. So it is with the church. Each member has its own gift and office. The proof of this is that the church is a living organism of the Holy Spirit. All believers are constituted one body (v. 13). A multiplicity of organisms does not make a body, but a multiplicity of members with their separate functions. There is no room for jealousy or discontent among the members (v. 15, 16). It would be as reasonable for the foot to complain of its lot and refuse to function as a foot, as for one member of a church to envy the place of another. A deacon who is such by the appointment of God should not complain that he is not a minister. The church needs its foot-members, that is, those who are swift to run on its errands; it needs its eye-members, who are quick to perceive opportunities for service; it needs its ear-members, who are quick to hear the word of God; it needs its hand-members to perform its many deeds of kindness. Every member of the church has its place by the sovereign will of God (v. 18). If this were realized there would be the most efficient cooperation among the members of the church. The pastor would faithfully do the work of a pastor; the minister, the work of a minister; the teacher, the work of a teacher, etc.

II. The Mutual Dependence of the Members of the Body (v. 21). They must co-operate for the life and service of the body. As the foot cannot dispense with the head, the church, even the most highly gifted are dependent upon those of the lower order. Self-conceit and pride are as much out of place on the part of the highest in ability as of the lowest. In fact, a sober realization of this will do away with all such pride.

III. The Least Attractive Members Are the Most Necessary (v. 22, 23).

In the human body the least of more vital importance than the tongue. So in the church prayer is of much more importance than the gift of eloquence. Many exclaim, "I have been given of those who wrestled with God in the closet, doing more for the cause of Christ than those who shone forth most conspicuously in the public eye. The lungs are never seen or heard, yet without them the tongue would not utter a word."

IV. The Different Members Have Been Adjusted By God (v. 24, 25).

So perfectly has this been done that if each performs its own function there will be harmony in the body. All schism in the church is due to failure of one member to perform its duty because of envy of the position of another. By considering Christ the head and obeying Him all strife and division in the church will be eliminated.

V. Members Are Systematically Related (v. 25-27).

One member should have the same care for the other as for itself. The eye has the same concern for the foot as it has for itself; so the most eloquent has the same solicitude for the humblest member as for himself. This is true because the suffering of the one is the suffering of the other; the honor of the one is the honor of the other; the sorrow of the one is the sorrow of the other; the property of the one is the property of the other; the shame and disgrace of the one is the shame and disgrace of the other. This is true because there is a common life which is derived from and directed by its head, Jesus Christ (Eph. 5:23).

Alberta To Have More Telephones

Over 11,000 Now In Homes of the Farmers.

The Provincial Government of Alberta is calling for tenders for the construction of 2,000 miles of pole lines for telephones and stringing 4,000 miles of metallic copper wire. There are at present over 45,289 telephones in Alberta, of which more than 11,000 are in the homes of farmers. The telephone system, which is government owned and operated, gives service to 719 cities, towns, villages and hamlets in the province.

No Argument There.

He—I suppose you'll tell me some idiot proposed to you before we were married.

She—Certainly.

He—Why didn't you marry him?

She—I did.—Elton Journal.

At heights of more than 23,000 feet above sea level, mountaineers say that sleep would be difficult, if not impossible.

## McDonald Has Now Discarded Cane And Walks Well As Ever

"I just simply think there's nothing like Tanlac, for the way it has restored my health is simply wonderful," said Kenneth McDonald, well-known hardware dealer, residing at Oak River, Man., while in Winnipeg recently. "Three years ago I commenced suffering with lumbago, and then a year later rheumatism struck me in my legs. My knees were so stiff in the morning I could not stand them, and I certainly did not have a time getting my clothes on. In a few months my legs and arms got to hurting terribly, and I was so crippled up I couldn't get around without the aid of a cane. I was hardly able to eat anything, and

suffered from gas bloating and pains that were simply terrible. The pains kept me awake most of the night.

"About two months ago I started taking Tanlac, and three bottles of this medicine made me feel like a different man. I've finished my sixth bottle now, and haven't a trace of lumbago, rheumatism or stomach trouble left with me, and have gained twelve pounds in weight. The cane I used to walk with, stands up in the corner of my room now, for I can get about so well I never need it any more. Tanlac is beyond doubt the best medicine in the world."

Tanlac is sold by leading druggists everywhere.

## Fishing Popular Summer Pastime

Booklet Issued by C.P.R. Will Prove Valuable to Anglers.

For the information and guidance of the anglers the Canadian Pacific Railway has issued a booklet entitled "Open Seasons for Fishing in Canada and Newfoundland." This booklet covers extensively the kind of fish to be had in each province, the open seasons, and the resident and non-resident license fees. Fishing being a popular summer pastime in Canada this little booklet will in all probability be in great demand and prove of value for the information it contains.

Don't Submit to Asthma. If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficacy. The relief that comes will convince you more than anything that can be written. When help is so near, why suffer? This remedy is sold by dealers everywhere.

May Ship Fruit Via Panama Canal.

R. G. Parkhurst, Vancouver, manager of the Royal Mail Steam Packet Line, which will shortly have ships operating from Vancouver to the Old Country, visited the Okanagan recently and discussed with fruit shippers plans for sending apples to the Old Country via the Panama Canal. It is expected that there will be a good movement of apples to the markets of the United Kingdom this fall.

Poch May Dedicate Quebec Memorial

The Great War Veterans of Quebec have been granted permission by the city council to place a memorial cross on Montcalm Market Square close by the St. John's Gate, as a tribute to Quebec who fell in the war. It is intended to place beneath it a quantity of earth from Ypres and Vimy Ridge. It is hoped to get General Foch, if he comes to Quebec this summer, to turn the first sod for the memorial.

Keep Minard's Lintiment in the house

Only Woman to Navigate Falls Dead. Anna Edson Taylor, the only woman who ever lived to tell the tale of navigating Niagara Falls in a barrel, died at the age of 58 years at the Niagara County Infirmary, Lockport, N.Y.

Mrs. Taylor made the trip over the falls on October 24, 1901, in a crudely constructed wooden barrel.

It is easy to say what you would do in another man's place, but when it comes to doing it in your own place—well, that's different.

## BEST BUTTER IS ONLY MADE FROM REAL CLEAN CREAM

(Continue d from page 1)

stand for it. The New Zealand quality standard is no fictitious barrier either. All butter from the islands is subjected to a rigid government inspection, and a real one at that. It is scientifically produced, graded and manufactured, and the whole executive ability of a highly efficient business government is behind it. New Zealand butter is a "hard nut to crack," but it can be cracked, just as soon as a large percentage of the Alberta men come to recognize that a new condition has arisen, and that any man who produces poor cream is injuring his neighbor.

New Zealand butter is always of the same high grade; it is always uniform; and Alberta butter must conform to this standard if we are to hold our own. This is the message to the farmers of Alberta from the butter manufacturers. "We have no market for poor cream." This is no cheap sarcasm, but a very real and deplorable condition. The remedy is obvious.

In the course of a conversation with one of the leading dairymen of the province, the fact developed that during the past year large quantities of cream coming from some of the foreign settlements could be placed under no category but that of "off grade." Some form of control is necessary to see that the rules of cleanliness are observed.

It is very apparent that some form of production supervision is necessary to educate many of the rural dairy farmers to the necessity of cleanliness and science in the handling of their cream, in order to obviate the present production of large quantities of particularly low grade butter.

New Zealand, Australia, the United States and many other dairy countries have systems in vogue, whereby a government official tours a certain district, inspects the milk products, and advises the farmers of the best methods to pursue in order to obtain the best results for their expenditure of capital and labor. Something on the same scale is a vital necessity in Alberta. The system by which the manufacturers pay on a quality basis is an undoubted help, but education is needed more surely still, and until some system is evolved whereby the milk producer is made to see that it is to his advantage to produce the best article only, there is but small hope of Alberta reaching her proper place—at the top.

Repeated efforts have been made by the producers to secure an equalization to the tariff both to and from the States.

Recently, D'Arcy Scott, secretary of the National Dairy Council of Canada went to Washington for the purpose of interviewing Mr. Fordney of Tariff fame.

Despite the futility of his mission, D'Arcy Scott is again going to Washington at the behest of the Western Dairy Executive. While in the State Mr. Scott was in touch with a large number of the most representative men connected with the butter industry, all of whom expressed a desire to see closer trade relations between the two countries, and in particular the men of the Chicago butter trade were very favorably disposed towards Canadians and Canadian butter, and would be glad to see the tariff lowered.

The scheme which is in vogue in the United States regarding supervision and education might well be emulated here. There, each state is divided up into countries in charge of a Country Agent, who is paid by the county his function being to oversee farming operations generally, and to give advice, where advice is needed. This agent is a scientist and also a practical man. He knows what is best for the farmer, and his is paid to show him

the best methods in vogue.

This system has met with such success that the Federal government is also going to work similar lines, the states have been divided into sections and in each of these a federal officer is on hand to advise the agriculturists, in addition to the county agent.

The agents travel continuously from farm to farm; cows are tested, and the unprofitable animals weeded out while special advice is given in regard to the separation of cream and so forth.

In Australia, similar conditions prevail, but in addition to advice there is a rigid inspection of all dairy plants; cow yards must be swept clean at least once a week, all the cow barns must have cement floors and be thoroughly whitewashed, and the cream room, and separating room must be a certain distance from the cow sheds.

Heavy fines are imposed for any breaches of the dairying act. Although there was at first considerable objection to the scheme Australians have learned that it pays to be scientific and cleanly, and in the southern continent at the present time, the dairy farmers compose the most prosperous class in the community, while Australian butter has a reputation which is hard to excel. New Zealand is even more rigid

You'll wonder at the change when you see this healing remedy. It's really splendid for coughs, colds, bronchial irritation and Catarrhal trouble. Sold everywhere. Two months treatment \$1.00, small size, 50c.

## The House On Mercy Street

By Florence Kerigan

Miss Angela set her finger on a tiny little bell, and at once the throng of boys who were whooping madly up and down the hall and in and out of the rooms of the house on Mercy Street, came together in the living room and settled down to listen to the afternoon story.

They just adored Miss Angela. From the time she rented the little house and turned it into a clubhouse for the rough, tough little boys of the neighborhood, they loved her. They exhibited her to their rough, tough, dirty friends with pride, and gradually became less rough, and less tough, and washed their faces now and then.

On that particular afternoon, when the soft air blew in the open window and made her fair hair stand out from her head like a misty, golden halo, and shook the faint perfume out of the bowl of lilacs on the table, she announced that she was going to tell them a story of knights and fair ladies and the spring. She settled herself in the seat of honor, and swept the circle of faces with her brown eyes which Abie Rabinowitz, said were "just like these here, now, pansy flowers, ain't they?" wistfully, laying them smiling at them all, from Abie to the mysterious, well-dressed, perfect-mannered Jack who came in every day to play.

Then, very simply and dramatically, she told the story of Sir Galahad and the Holy Grail, and all her hearers listened spellbound. And when it came to an end, they sat silent for a moment, then clamored for another.

Next, she told them a rollicking Irish folk-tale that made them laugh, and followed it with others until a factory whistle told her it was five o'clock and closing time for the clubhouse.

They found their hats and tramped out, but Miss Angela remained, and her shoulders drooped with sudden sadness.

That morning she had received a letter saying that she would have to leave the dear little house on Mercy Street, as the landlord wanted it for one of his friends. She had at once called up several influential men and tried to interest them in a campaign for establishing a community clubhouse to carry on the work begun, but without result. One of the men, John Davenport, told her frankly, that he was decidedly against such work—that the poor of the city could rise if they wished, without such waste of money. Still, with a heavy heart Miss Angela fought the thought of giving up her boys.

On Friday afternoon the boys were grouped about the piano singing a few favorite songs when a man's figure stopped in the doorway.

Miss Angela recognized the clear-cut, rather stern face of Mr. Davenport, and wondered what had brought him there. At the same instant Jack cried, "Dad!"

"Jack, what are you doing here?" The man's voice was well under control, but Miss Angela could see that he was very angry.

Jack stepped out bravely. "Dad, I'm sorry it had to be this way—but Hannah wouldn't let me come when I asked her. And they were having such fun! I got so tired playing by myself, Dad! Here we have the grandest times! Mickey Mulligan—that's Mickey over there, has a sister and two rabbits and some white mice, and his father sings the funniest songs. And Abie Rabinowitz lives at a jeweler's store and his father let me look at some stones just like those of Mother's."

"Why, it's preposterous!" gasped Mr. Davenport. "I'm surprised at

you, Jack. You, with all you have and all you are, coming here like this and playing with dirty ragamuffins!"

Jack squared his shoulders. "I haven't a thing. I haven't a mother to sing to me or smooth my hair or make me little cakes like Jimmy Casey's mother does, and I have no rabbits or cats or even a puppy—why, I've never even had mumps or measles! And I can't sing like Remond Galacelle, or paint like Olaf Nels. I've just got a lot of old money that won't buy the things I want!" His lip quivered suddenly. "I love them all so much—and I never loved anybody before!"

"Old money that won't buy what I want!" The words struck deep, and made him think of the sweet white money had not been able to hold—of the happiness that money had not brought him—of the mansion which had held everything but love and joy.

Mickey Mulligan stepped to Jack's side. "If ye please, he's a good guy even if he is a swell, and we like him, sorr."

"Suppose you boys go outside and play," in a softer tone. "Miss Sheridan, will you tell me about this business?"

Miss Angela drew up a chair for her guest, and told him the whole story of the club and what she tried to make it stand for and the love of it made her eloquent. Her enthusiasm was infectious and at the end of an hour he was making plans with her for a larger club that would broaden into athletic activities. She shook her head, sadly.

"We're not all millionaires, Mr. Davenport."

"Don't you understand? I want to do it with you. You must come in on it. Why, I wouldn't take a million dollars for the way these boys treat my son and the happiness they and you have given him. So, I'll see an architect tomorrow and we'll have a regular clubhouse right in this neighborhood!"

In spite of her protestations, he carried on his purpose and formed a habit of dropping in during their play hours and showing her the latest plans and talking over new things he had thought of.

Then, one day, he brought some new plans for her inspection. "Don't you think," wistfully, laying them before her, "that you could make a house out of one of these for you and me and a lovely little boy that never loved anyone before?"

Miss Angela promptly became very rosy and confused, but her answer must have been satisfactory, for some months later, the boys all met for a feast of ice-cream and cake on a very joyous occasion. And they presented her with a solid silver spoon bought with their own savings from Abie Rabinowitz's father who was a jeweler.

## HAS NO PAIN NOW

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Baker and Mrs. Kiever.

Vancouver, B.C., "I am pleased to say that Lydia E. Pinkham's Vegetable Compound has done me a lot of good. I can now walk about without the aid of a support and feel strong again. A nurse advised me to take the Vegetable Compound and it certainly helped me. It seems like Heaven to be relieved after months of pain. Mrs. H. W. Baker, 874 10th Ave. West, Vancouver, B.C."

Albert Co., N.B., "I have taken Lydia E. Pinkham's medicine and they have done me a lot of good. I have been able to do my housework and I have a lot of work to do as we live on a farm. Seeing your advertisement in the papers was what made me think of writing to you. I hope this may help some one else."

Mrs. Wm. B. Kiever, Upper New Horton, Albert Co., N.B.

The women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they are helped by Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved.

If you have any complications you do not understand write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

## Care Of The Bedroom

BY LORETTO C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

Every detail of housekeeping should be attacked from a health standpoint. It is well for the woman to consider this who becomes a little rebellious as spring comes on and wonders, "Why all this fuss?" The care of the bed and the bedroom should be especially treated from this standpoint.

For a while a dusty chair in the living-room may be undesirable, it is of far less consequence than either a dirty dishcloth or an unclean bed.

The ideal bedroom has at least two windows and is flooded with sunlight and sunshine on bright days. It is large enough to contain a bed, a chest of drawers, a bureau, a dressing table, a washstand, a wardrobe, a closet, a small rug in front of the bed or dressing table. After the wood is properly finished, it should be waxed or oiled. The oil of the floor of the bedroom is of great importance for a carpet of dust.

Single beds are coming more and more into fashion. Health authorities tell us that it is more conducive to both health and comfort for each to have an individual bed. Plain white enameled bed frames are always a wise choice if one's money is limited. But, no matter what the frame, buy the best mattress and spring you can afford.

If you buy a bed mattress second-hand, be sure to send it away to a reliable firm to be thoroughly sterilized. And, in any event, once every few years, mattresses should be sent away for a course of days.

The bedding should be laundered and the hair or other material it contains should be thoroughly and scientifically cleaned.

Every mattress should be protected not only from soil or surface dirt, but it should be protected so that it may not absorb and hold perspiration or other body excretions. To protect it from surface dirt, make or purchase mattress covers of unbleached muslin. These are usually provided with buttons and buttonholes so that they may be fastened after being slipped over the mattress. Rubber sheeting or oiled silk are not convenient in price and go a long way toward preventing the absorption of body excretion.

Sheets should be washed and boiled, but need not necessarily be ironed. Try to air each one of the bed coverings for at least an hour each day. Arrange them so that the air may circulate through them—damp, rainy days excepted.

Poland Will Need Sympathy. Poland can deal with Lithuania single-handed, as Italy can deal with Yugoslavia. But against Germany Poland is powerless, material and wealth.

In a quarrel with Germany, which the Germans will not allow to die very soon, Poland will need the sympathy of Western Europe and America. She cannot get it by allowing patriotic mobs to supersede the Supreme Council—New York Times.

Dairy Products In Alberta. The value of creamery butter produced in the Province of Alberta during the year 1920 amounted to \$5,512,500, while the value of dairy butter amounted to \$25,972,500.

The members of the British royal family are now required to pay taxes on their property, though, as a matter of courtesy, they do so.

For 16 centuries the little republic of San Marino has maintained its independence, although Italy entirely surrounds it.

## Growth In Canada

Great Increase In Agriculture and Stock Raising.

At Confederation in 1867 there were in Canada but 123 bank branches, while in 1920 they had increased to 4,500. Canada's mileage in railways increased from 2,288 when the provinces were united to 38,896 last year. The 3,797 grain elevators in the centre of the grain growing district were totally unknown at Confederation when there was not a single one in the country. Canada's most phenomenal growth was in her agriculture. From a country where it was considered problematical whether it was possible to grow wheat Canada has consistently carried off the first honors of the American continent for ten years. Cattle had increased from 2,624,290 in 1871 to 9,477,380 in the past year, whilst the quality of the animals bred has remarkably improved. The same is true of the horses, as exemplified in an Alberta rancher securing the first Clydesdale prize at the Chicago International Stock show last year.

## Value of Industries

Winnipeg's Output In All Lines Valued at \$120,213,000.

With an invested capital of \$96,698,225, an estimated annual payroll of \$24,308,982, the output of Winnipeg's industries in 1920 was valued at \$120,213,000. Of this, the grain and grain mills absorbed \$14,487,398; slaughtering and meat packing, \$6,236,236; butter and cheese, \$2,905,648; bags, cotton, \$2,750,633; electric light and power, \$2,335,997; lumber products, \$1,818,567; bread, biscuits and confectionery, \$1,816,674; printing and publishing, \$1,785,001; malt liquors, \$1,663,905; coffee and spices, \$1,704,424; foundry and machine shop products, \$1,493,560; furnishing goods (men's), \$1,147,456.

## Canadian Cow's Record

Holstein's Average Milk Production Has Not Been Equalled.

A Colony Farm Holstein has broken another world's record in milk production, according to records just received by Herdman Herbert Dorling, Holstein, B.C., from the Canadian Holstein Association.

The colony Farforist Segin, as a junior, 2-year-old produced 17,507 pounds of milk and 715 pounds of butter. Her sister, Colony Farforist McKinley, last year created a world's record as a senior 2-year-old when she produced 21,300 pounds of milk and 1,060 pounds of butter. The average production of these two sisters, 19,338 pounds of milk and 888 pounds of butter has not been equalled, according to the records of both the American and Canadian Holstein Associations.

## Sight of Man Agitates Wire

World-Famous Scientist Attempts to Prove That Metal Has Vision.

Sir J. C. Bose, the world-famous scientist, who by means of his magnifying-cresograph machine, has proved that plants have nervous systems analogous to those of human beings, has given a remarkable demonstration before a crowded audience of men and women at the Bose Institute, Calcutta.

It is known that metal may be "killed" by the administration of poison.

The scientist, however, experimenting with a piece of wire, showed how wire may be credited with the power of vision. "When the wire sees me," he said, "it will show its agitation." He placed the wire in a metal box that had a thin slit.

When Sir Jagadis passed before this slit the wire's agitation was far more intense.

## Ex-Emperor Melancholy

Death of Empress Made No Change In Daily Routine.

The death of former Empress Augusta Victoria has wrought no radical change in former Emperor William's daily routine. He continues his wood sawing, reading and inspection of the Doorn estate. Frequently he takes short strolls through the village during the early morning hours. The former emperor receives fewer visitors than previously, however, and suffers spells of melancholia during which he flees from companions.

Former Crown Prince Frederick William arrived at Doorn to visit his father for the first time since the death of Augusta Victoria.

More Elevators For Saskatchewan. The Saskatchewan Co-operative Elevator Company has started construction of new elevators at Hodgeville and Spalding. Other elevators will be erected at various points in the province during this summer by the company. Both these elevators will have the usual standard capacity of about 35,000 bushels.

## Australian Settlers For B.C.

William A. Eamon, an Australian, who has been investigating conditions in British Columbia and the Prairie Provinces, has concluded the purchase of a two-section farm at Victoria, B.C. It is understood that his action will probably influence an Australian influx of some magnitude.

## Liners Bring Many Passengers

Those Travelling Third Class Were 100 Per Cent. British Born.

The opening of the 1921 passenger season in the port of Montreal was marked by a movement of passengers that would be heavy at any time of the year, no less than four liners—the "Minneapolis," "Canada," and "Metagama" from Liverpool, and the "Canadian Fisher" from the West Indies, arriving on the same day. The high standard of the passengers carried in the third class quarters, who were almost 100 per cent. British born, was the most noticeable feature of the capacity lists.

## One Can Be Smelted in Canada

Will Save Dominion Millions of Dollars Annually.

An associate committee of the Honorary Advisory Council of Scientific and Industrial Research investigating the question of the utilization of low grade iron ores in Canada has reported to the council and it is now regarded as highly probable that the vast deposits of low grade magnetic iron ores can be successfully smelted in Canada on a commercial scale.

The value of iron ores, iron and steel imported into Canada exceeds \$150,000,000 annually, and 94 per cent. of the iron ore smelted in Canada is imported. If the research is successful the council feels that a saving of millions of dollars annually to Canada will be effected.

## Turks Arrogant After Victories.

Failure of the Turkish Nationalist Government of Ankara to ratify the treaty concluded March 12, between the French Government and the Turkish Nationalists, is expected to cause the lapse of the agreement according to advisers received. Recent Turkish successes against the Greeks have helped to develop an uncompromising attitude among the Nationalists toward the French.

## Why The Complaint.

Leaders of the Welsh miners protest against the use of troops which they term violence. Anything more violent than threatening the country with starvation by tying up all trains and stopping industries is hard to imagine.

## Worms As Thin As Straw.

Samoa boasts a swarm of extreme slenderness, like a fine straw, which is eaten like the oyster, both raw and cooked.

The planet Venus moves around the sun at an average speed of 22 miles per second.

## Old Time Engineer At Age Of 76 Goes Back To Work On C.N.R.R.

"Although I am now past seventy-six years of age I am working every day, for Tanlac has put me back on the job after I had given up all work, and didn't think I could ever get well," recently said C. L. Skinnick, 520 Maryland St., Winnipeg. Mr. Skinnick has spent the greater portion of his life on the sea, being Chief Engineer on several of the largest ocean liners plying the Atlantic. Twenty years ago he gave up the sea, and is now employed as stationary engineer by the Canadian National Railway. "There is one thing I hope I never have again," he went on, "and that is rheumatism. It simply had the best of me and I was practically helpless. It had started four years before and I was so crippled up I couldn't do a lick of work. My knees were actually as stiff as boards and of mornings I had an awful time trying to get clothes on; why, the pains nearly killed me. My appetite went back on me and I got so I didn't want to eat a thing. I didn't know what a good night's rest meant and I was as weak as a baby."

## B. C. Lumber Stands Test

Timber Included In Specifications for Imperial Institute, London.

The Department of Trade and Commerce has been informed that practical tests of British Columbia timbers—Douglas fir, British Columbia spruce and western hemlock—by H.M. Board of Works, London, on behalf of the advisory committee of timbers for the Imperial Institute have proven quite satisfactory, and a result these woods were included in the official timber specifications of that department as alternatives to European joinery timbers.

## German Prison Camps.

The Leipzig trials of German offenders may not bring many convictions or heavy penalties, but the evidence taken in London in respect to prison camps shows that the prosecutions are serious. Accounts given by former prisoners provoke indignation, but only confirm the statements of Canadian prisoners who have passed through some of these camps—Vancouver Province.

## Raisins Are Good Food.

If it were more generally known that raisins are one of the richest foods in assimilable iron they would be put to a greater variety of use. A small supply of iron is needed daily to keep the blood in good condition. Raisins furnish much energizing nutriment per pound, and contain 75 per cent. pure fruit sugar in practicaly undigested form. Here, then, is a food which is cheaper, nutritious, and, moreover, appetizing.

## Big Acreage For Flax.

The Manitoba Linsced and Fibre Company, of Stony Mountain, Manitoba, have already started to break 3,000 acres of land for flax this season.

## Recent survey of land under cultivation in the Okanagan district shows a total acreage of 19,991 acres, growing 1,103,550 apple trees, 61,819 pear trees, 21,981 plum trees, 4,490 prune trees, and 112,089 cherry trees.

## Are You Human?

A little baby. A little child. Don't they appeal to you? Doesn't your heart yearn to pick them up, to cuddle them close to you, to shield them from all harm? sure it does else you're not human. Being human you love them. Their very helplessness makes you reach out in all your strength to aid them. In health there's no flower so beautiful. In illness there's no night so black.

Save them then. Use every precaution. Take no chance. When sickness comes, as sickness will, remember it's just a baby, just a child and if the Physician isn't at hand don't try some remedy that you may have around the house for your own use.

Fletcher's Castoria was made especially for babies' ills and you can use it with perfect safety as any doctor will tell you. Keep it in the house.

## Children Cry For Fletcher's CASTORIA

"Great is Truth, and mighty above all things." So says the Old Testament, yet it is equally true to-day. Truth shows no favors, fears no enemies.

From the inception of Fletcher's Castoria, Truth has been the watchword, and to the conscientious adherence to this motto in the preparation of Fletcher's Castoria as well as in its advertising is due the secret of its popular demand.

All imitations, all substitutes, all just-as-good preparations lack the element of Truth, lack the righteousness of being; lack all semblance even in the words of those who would deceive.

And you! Mothers, mothers with the fate of the World in your hands, can you be deceived? Certainly not.

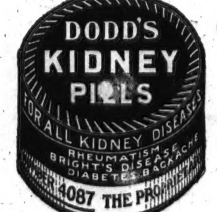

Fletcher's Castoria is prepared for Infants and Children. It is distinctly a remedy for the little ones. The BABY'S need for a medicine to take the place of Castor Oil, Paregoric and Soothing Syrup was the sole thought that led to its discovery. Never try to correct BABY'S troubles with a medicine that you would use for yourself.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS Bears the Signature of

Chas. H. Fletcher

THE CENTAUR COMPANY, NEW YORK CITY.

## Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton  
Summer 1875.

By O.G. MASES (Little Clerk).

(Copyrighted)

(Continued)

On looking over my last article it may be that my readers will be left with the impression that Chief Factor Archie McDonald was a tyrannical, unjust man, but this was by no means the case. You, however, must understand that Hudson's Bay officers in charge of districts at this time had practically absolute powers. Truly, Canada had taken over the country, but her jurisdiction for all practical purposes ended when you left Fort Garry (now Winnipeg), and in the great realm of the Northwest the H. B. Co. ruled supreme. They had jails at many of their head posts, with handcuffs and leg irons for unruly servants, or law-breaking Indians, and they used them when required. Give absolute authority to any man and he is apt to become more or less of a despot. Shortly after leaving the Hudson's Bay service in 1883, and being at that time in poor health and circumstances, Mr. Archie McDonald was exceedingly kind and helped me to get a start on my own account.

To resume our trip across the plains. The rate of progress daily was governed by that of the loaded carts, whose squeals from wooden axles could be heard for miles, in spite of constant applications of grease. From twenty to twenty-five miles daily was a fair average and one must know that the ponies subsisted entirely on grass, as oats were unknown in the wilds. Consequently the men would start with the carts very early in the morning, while the bourgeois and us clerks would have breakfast much later and easily catch up with the train for dinner. Ahead of the party rode Chief Jeanne Homme, generally with me by his side, thirsting to imbibed all the plainsman's lore possible, and sometimes the other clerks were with us. Armed guards had to be set nightly, and the horses watched very carefully, for stealing was rife, and no doubt our large brigade was spied upon from time to time by scouting Indians. The points were covered with fresh buffalo sign and the guide's opinion was that a large herd was just to the south of us. In fact a few old bulls were sighted by our riders, but Mr. Ewen would not allow any hunting for fear of laming or injuring the horses, and this much to the disgust of our young steers who were all anxious to shoot a buffalo.

About the tenth day we met a small war party of Saulteaux coming from the great plains to the southwest, en route to Fort Qu'Appelle. They met us all marching on foot with drums beating, their headmen rigged out in scarlet cloth, paint and feathers galore. There was the usual shake hands and a smoke, then small presents were handed to them, by Mr. McDonald and, in return, we received a welcome and their little young buffalo meat just killed the day before. They had no carts, only travois, that is the lodge poles, two of them lashed on each side of a pony, a parchment laced across behind, the horse and on this robes, dressed buffalo leather, dried meat and pemican were piled, even their large split eared dogs were laden in the same way. With the exception of a violent wind storm that made things lively for a while, nothing of importance happened until we reached the south branch of the Saskatchewan, and here we had some fun in crossing the river, there being no ferry. We made rafts of the large wooden cart wheels, over which buffalo parchments were laced

securely, and in the centre of these rafts were placed the women and children, all baggage, freight, etc. Swimmers were the motive power, and I could not say how many times I crossed the river. The large band of ponies were left to the last and Jeanne Homme and I took them across, explaining that on no account must we allow them to circle, but keep them going in a direct course, the remedy if one turned back to splash water in their faces. All went well but it took several days before the whole outfit was safely across. Another day's travel took us to Fort Carlton, which, unlike Ellis, was situated in the valley of the North Branch, close to the river, arriving there without the loss of a pony, a point Mr. French, much to the satisfaction of Chief Factor Lawrence Clark who ruled supreme over the Saskatchewan district with Fort Carlton as headquarters. The fort was much on the same plan as Ellis, but in better order. This fine establishment was built in 1882 by order of the Mounted Police and Volunteers were evacuating it, after the defeat at Duck Lake.

It was detailed to lend a hand in the trading store and daily my erstwhile companions left for their various destinations. Some days after my arrival a packet arrived by canoe from Cumberland House (down the river), and that evening I was summoned to the office, where, in addition to Mr. Clarke, was inspecting Chief Factor Robert Hamilton. They informed me there was a pressing vacancy at Cumberland, and they were considering changing my appointment from Mackenzie River to that point, but they would like to hear my views. It was all one to me, and so I told them, and it was then decided that I go down the river on the first opportunity. Mr. Hamilton, who came from Peterboro, Ont., and was an old friend of my father's, gave me much wise and kindly advice as to my future in the service where he had spent practically his life time.

Several weeks passed in very pleasant company at Clark's, and he had a lovely daughter and there were several other ladies at the fort. Picnics, dog shooting and boating were the principal amusements and we, as birds of passage, were not asked to work very hard. A York boat arrived from up the river, and carried orders to embark next morning. The crew were Red River half-breeds and I took up my place in the stern sheets after saying good-bye all around. We stopped at Ft. La Corne for a short time, where one Geo. Goodfellow was in charge, and I did not think they would have stirring times together later on, but that, to quote Kipling, is another story. Drifting at night and occasionally rowing in the daytime, four days took us to the mouth of the Big Stone River, which empties into Cumberland Lake into the Saskatchewan. A short pull against a strong current took us up to Cumberland Lake, which is quite an extensive sheet of water, and in a few minutes more we were at the wharf of the old historic Cumberland House which, it is said, was the first post established by the Hudson's Bay Company on the Saskatchewan River. Here ruled supreme Factor Horace Belanger, a French-Canadian, a man of great girth and jovial temperament, very widely known and much liked. He was a half-brother of Letellier de St. Just, at one time Lieutenant-Governor of the province of Quebec.

(To be continued)

## Depletion Of Funds May Settle Strike Of British Miners

London.—Prime Minister Lloyd George's unofficial conversations with the coal owners and miners have led to nothing definite so far. It is stated, however, that progress has been made toward clearing the way for an acknowledged conference between the mineowners and the men. The Premier is determined that open negotiations will only be renewed when the way is reasonably clear to a settlement. The leaders of the miners are not now entirely unanimous in insisting for a national profit pool. Public opinion, however, is not wholly condemnatory of the miners.

The executives of the Transport Workers' and the Railwaymen's Union have jointly re-affirmed their decision that members of these organizations shall continue to refrain from handling, supporting or "black leg" coal. This, however, is hardly likely to affect the existing position materially.

Trade union funds are now depleted more than ever previously in modern times. The London tram service is almost normal, and the power house being operated by volunteer labor, assisted by naval ratings. The Glasgow dock situation is unchanged.

Forty-four hundred volunteers are working and sleeping on the docks, among them being women volunteers who are accommodated on the ships. Twelve ships from Montreal loaded with foodstuffs are being dispatched to Glasgow. The Government is making a good display of force about the docks and machine guns are posted at strategic points but as yet there has been no occasion for the use of force.

Lord Londonderry's proposal to his fellow coal owners relative to the amalgamation of the collieries to save overhead expenses, has been coldly received. A shortage of beer through the country generally as a consequence of lack of coal has led "Punch" to remark that "it is something serious would eventually happen."

### New Flying Director

Vancouver.—Captain A. G. Goulding, of the Dominion Air Board, who has arrived in the city, is to be appointed director of civil flying operations in the west, according to an announcement made by Air Board officials. His office will be in Edmonton.

## Germans Reach Canada To Study Conditions

Business Men Confident of Capturing Pre-War Trade.

Quebec.—The German business men reached here on the steamship Empress of France. One of their number announced that they were merely coming to Canada to investigate commercial conditions and not to obtain business.

Some of the Germans had rather a gloomy picture of conditions in the Fatherland, but all believed that it would not be long before the country captured a large part of the pre-war trade. They stated that already business between Germany and England was picking up. The unsettled labor conditions in the British Empire had resulted in England "coming to reason" sooner than they would otherwise have done, one German said.

## British Could Restore Order

Pokah Refugee Says Peace Impossible If French Have Command.

Berlin.—Order cannot be restored in Upper Silesia while General Lomax or any other Frenchman commands the inter-allied forces, entrusted with the execution of the Versailles treaty said Countess Scher-Those, who arrived here with other refugees who had escaped from the area affected by the Polish insurrection in the plebiscite area. The countess is a daughter of Henry White, member of the United States delegation at the Versailles Peace Conference.

"When an Englishman or an Italian is given command there," she declared, "Germans will have confidence, and it will be possible to restore order and disband the volunteer forces organized to protect the rights granted by the Versailles treaty."

## Lenine Reported Ill

Russian Bolshevik War Minister In Sanatorium Near Moscow.

Riga.—Information has reached Riga tending to confirm the report that Leon Trotsky, the Russian Bolshevik war minister, is seriously ill. He is said to be in a sanatorium near Moscow, suffering from cancer. Some mystery, however, surrounds the case, as recently Moscow reports were circulated to the effect that he and Ensign Krylenko, former Bolshevik commander-in-chief of the Russian armies, had gone to the Afghanistan frontier.

## Dog Descended In Parachute

Carried Message When Airplane Was Unable to Land.

Rantoul, Ill.—"Bing," a fox terrier, made a descent of 1,500 feet in a parachute from an airplane at Chautau Field. When "Bing" landed he overcame himself for his harness, overcame another dog set to prevent his onward journey and ran to headquarters with a message carried in a pouch suspended from his neck.

The performance was to show the practicability of using dogs to carry messages when an airplane is unable to land.

## Canadian Navy League Not Being Supported

President Jarvis Hopeful For Future When Object Is Understood.

Toronto.—Lack of public interest, a depleted treasury and a greater cost of maintenance were the problems facing the Ontario division of the Navy League of Canada, President Aemilius Jarvis stated in an address at the provincial annual meeting of the provincial general committee here. However, President Jarvis said he was sanguine for the future of the organization when its aims and objects and usefulness were fully understood, by the people.

## May Get Share Of First Payment

Canada Entitled To Portion of Reparations Money.

Ottawa.—A small proportion of the first German payment on reparations may come to Canada. The payment of 150,000,000 gold marks made, will, it is stated here, be applied to the cost of the Allied army of occupation. As Canada contributed a small number of men to the army of occupation for a short time immediately after the armistice, she may be the recipient of an amount partially to cover her expenditure.

## Pioneer of Manitoba Dead.

Strathclair, Man.—Jas. Forsythe, centenarian, pioneer of Manitoba, died at his home here at the age of 102 years and four months. Mr. Forsythe was born in Ireland, coming to Canada at the age of 14. In 1882, after living fifty years in Ontario, he moved to Manitoba.

Ex-Kaiser's Son Convicted. Berlin.—Eitel Frederick, second son of former Emperor William, was found guilty of illegally exporting capital to Holland through the firm of Philippsohn, Grusser & Company.

## Leader of Progressive Agriculture

States Platform on Which Appeal Will Be Made to the Electorate

On June 9th.

Regina.—A general provincial election in Saskatchewan will be held on Thursday, June 9th, with nomination day one week previous, on Thursday, June 2. The fourth legislative assembly of Saskatchewan which has just been dissolved, entered office on June 26th, 1917, and was composed of sixty-two members, of whom fifty-two were Liberals in politics and supporters of the Marlin government, six Conservatives, three soldier members and one independent.

In his manifesto to the people of the province Premier Marlin stated that the most important reason for the holding of an election at the present time is the desire of the government that the people of the province should be given an opportunity to express themselves on provincial affairs at a time when there is no federal election in immediate prospect. The public business of Saskatchewan should be dealt with on its merits and not confused or affected by issues which affect the whole of Canada and questions which are of federal jurisdiction.

Reviewing the work of the past four years, Premier Marlin spoke of the extensions of the Saskatchewan Co-operative Elevator system which have recently taken place, including the extension of a large terminal plant at Port Arthur. These extensions were accomplished with the financial assistance of the government. The growth of the Saskatchewan Co-operative Creameries, the progress made in co-operative marketing of livestock, and the success of the co-operative stockyards was briefly referred to.

In spite of very difficult financial conditions, about \$2,500,000 has been loaned to farmers by the Farm Loans Board. The relief work in sections of crop failure, public health work, educational progress, were reviewed, and the government pledges itself to return to office, to the following policy:

To continue the principle of co-operation between government and people in the solution of the economic problems connected with production and marketing, and as far as constitutional and financial powers would permit, to co-operate with the farmers in any practicable method of improving the system of marketing grain and farm products generally.

To continue the fight that the government is now waging for lower freight rates.

To provide for an agricultural survey of the province by the Saskatchewan College of Agriculture, and the establishment of demonstration farms under the control of the college in close touch with the people.

To make a thorough investigation of the whole problem of tuberculosis in Saskatchewan, by experts in the College of Agriculture, in addition to the support which the government is giving the Qu'Appelle Sanatorium.

To continue vigorous enforcement of the Saskatchewan Enforcement Act.

To continue the policy of consulting the representatives of labor on all matters affecting their interests.

To continue the various lines of progress already established in the educational lines of the province, as well as keeping in view the necessity of ensuring to every child the most efficient elementary education possible; a thorough knowledge of the English language and the widest opportunities for higher education.

To further develop the co-related highways system in the province, the foundation of which is already laid; continuing provincial assistance in the construction of main roads leading to market towns in co-operation with rural municipal councils, the work itself to be under the direct supervision of the province.

## Saskatchewan Premier Issues a Manifesto

States Platform on Which Appeal Will Be Made to the Electorate

On June 9th.

Regina.—A general provincial election in Saskatchewan will be held on Thursday, June 9th, with nomination day one week previous, on Thursday, June 2. The fourth legislative assembly of Saskatchewan which has just been dissolved, entered office on June 26th, 1917, and was composed of sixty-two members, of whom fifty-two were Liberals in politics and supporters of the Marlin government, six Conservatives, three soldier members and one independent.

In his manifesto to the people of the province Premier Marlin stated that the most important reason for the holding of an election at the present time is the desire of the government that the people of the province should be given an opportunity to express themselves on provincial affairs at a time when there is no federal election in immediate prospect. The public business of Saskatchewan should be dealt with on its merits and not confused or affected by issues which affect the whole of Canada and questions which are of federal jurisdiction.

Reviewing the work of the past four years, Premier Marlin spoke of the extensions of the Saskatchewan Co-operative Elevator system which have recently taken place, including the extension of a large terminal plant at Port Arthur. These extensions were accomplished with the financial assistance of the government. The growth of the Saskatchewan Co-operative Creameries, the progress made in co-operative marketing of livestock, and the success of the co-operative stockyards was briefly referred to.

In spite of very difficult financial conditions, about \$2,500,000 has been loaned to farmers by the Farm Loans Board. The relief work in sections of crop failure, public health work, educational progress, were reviewed, and the government pledges itself to return to office, to the following policy:

To continue the principle of co-operation between government and people in the solution of the economic problems connected with production and marketing, and as far as constitutional and financial powers would permit, to co-operate with the farmers in any practicable method of improving the system of marketing grain and farm products generally.

To continue the fight that the government is now waging for lower freight rates.

To provide for an agricultural survey of the province by the Saskatchewan College of Agriculture, and the establishment of demonstration farms under the control of the college in close touch with the people.

To make a thorough investigation of the whole problem of tuberculosis in Saskatchewan, by experts in the College of Agriculture, in addition to the support which the government is giving the Qu'Appelle Sanatorium.

To continue vigorous enforcement of the Saskatchewan Enforcement Act.

To continue the policy of consulting the representatives of labor on all matters affecting their interests.

To continue the various lines of progress already established in the educational lines of the province, as well as keeping in view the necessity of ensuring to every child the most efficient elementary education possible; a thorough knowledge of the English language and the widest opportunities for higher education.

To further develop the co-related highways system in the province, the foundation of which is already laid; continuing provincial assistance in the construction of main roads leading to market towns in co-operation with rural municipal councils, the work itself to be under the direct supervision of the province.

To further develop the co-related highways system in the province, the foundation of which is already laid; continuing provincial assistance in the construction of main roads leading to market towns in co-operation with rural municipal councils, the work itself to be under the direct supervision of the province.

WAINWRIGHT, ALBERTA, JUNE 8 1921.

## GREAT BRITAIN, JAPAN AND AMERICA.

The approaching conference of the Empire premiers in London and the presence of the Japanese Crown Prince in England have again brought to the front the question of the Anglo-Japanese alliance.

The United States has heard so much talk lately about the possibility of war between themselves and Japan that in some American quarters the renewal of the alliance between Japan and Great Britain has been construed as a menace. Canada has watched the growth of this feeling in the United States with concern. This country appreciates the need of friendship and co-operation between the two countries with which we are most intimately connected, and would not wish to see any action taken by either side that would create doubt as to the firmness of the friendship.

What has happened in regard to the Japanese alliance should in fact reassure the American people. Not only is this true of Great Britain's course in the matter but of Japan's as well. Both the latter countries made use of the opportunity to show their friendliness to the United States. The British government asked that in the new agreement there be a proviso that Great Britain should not be required to render any assistance to Japan if the latter should become involved in war with the United States—and Japan gladly consented.

Writing in The New York World, Arthur Henderson, British labor leader, and former member of the cabinet, says that "it is essential that any agreement between Britain and Japan should be locally incapable of involving this country (Great Britain) in any form of co-operation with Japan against the United States, or in any responsibility for difference that may exist or may arise between Japan and American."

There has been, since the agreement was first entered into, a very important change in the situation—that brought about by the league of nations. This, in the opinion of Mr Henderson, "has made it impossible for the agreement to be renewed in its old form. Without a cynical breach of faith on the part of the British government." There will be no going beyond "the limits set by the league of nations."

Two things are apparent as the result of the discussions upon this subject, one is that whatever else the alliance may be it will not be one directed against the United States. The other is, that even while the United States stays out of the league of nations it will benefit by provisions contained in the league covenant as long as the members continue to respect the terms of the league's constitution above special treaties of alliance and secret diplomatic agreements.—Calgary Herald.

## TO THE COMMUNITY AT LARGE

This week a house to house canvass is organized by the Red Cross for Membership Enrolment; and YOUR support is earnestly requested.

Life Membership is \$25.00 annual membership for adults is \$1.00. The Junior membership will be worked from the various schools. The money collected remains in the country, will not even leave the Province.

The war is over, but poverty and sickness are not. It should not be necessary to go into details about what the Red Cross organizations do for the good of humanity in general, and as far as the boys are concerned who were "out" no further explanation is necessary; they know.

The competition between the various parts of the Province promises to be keen. Is our town and district going to take a back seat?

Let us all say NO!

The following are the ladies and gentlemen who have promised to assist the committee in the canvass:  
Main Street, Mr Liddle; First to Third avenue East, Mrs Priestley and Mrs Frates; Fourth to Sixth avenue East, Mrs Mills and Mrs Gerow; Seventh to Tenth avenue East, and West of Main Street and North of the school, Mrs Dean and Miss Denny; First to Third avenue West, Miss Turner and Miss Spence; Fourth to Sixth avenue West, Mrs H. Pawling and Mrs B. Laird; Seventh to Ninth avenue West, Mrs Cork and Mrs Lush; School, Miss McLeod and Miss Scofield; Buffalo Park, Mr D. Davison and Mr Walker.

## EXTENSION OF EXPERIMENT WORK IN AGRICULTURE

Suggestions have been made in parliament that the splendid work being performed by the Experimental Farm system of the Dominion is not as widely understood and appreciated as it should be. Perusal of the report for the year ending March 31, 1920, prepared by the Director, Mr. E. S. Archibald, will reveal far reaching results and a remarkably wide range of activities. In this report details and particulars are given of the operations carried on by all the divisions, branches, stations, and illustration stations, scattered from one end of the Dominion to the other. In fact from this report can be formed an excellent idea of the prospects and probabilities in agriculture of practically every district in Canada. Nor is it only in this direction that the valuable results that are being established are being revealed. Since the war, expansions have been possible in nearly every branch, the number of illustration stations has been increased, and progress owing to increased facilities, has been most marked. At the Central Farm at Ottawa, a much needed modern dairy building has been added, herds of cattle have been strengthened, and extended work in poultry improvement and disease investigation has been entered upon. In short, release from emergency work necessitated by the war has made possible new and renewed effort in every line of agriculture of national and domestic importance. An especially interesting feature of the report is the attention given to weather conditions. By these it would appear that Canada revels in sunshine. At Ottawa, for instance, in the year under mention, there were 2,005 hours of sunshine at Fort Vermilion in the Peace River District, Alta., there were 1,930 hours, at Charlottetown, P. E. I., 1,658, at Nappin, N. S., 1,654, at Fredericton, N. B., 1,733, at Lennoxville, Que., 1,715 at Kapuskasing Ont., 1,760, at Brandon, Man., 2,000, at Indian Head Sask., 1,942, at Rosethorn, Sask., 2,355, at Lethbridge Alta., 2,333, and at Vancouver, B. C., 2,106.
